

DON'T STOP LOOKING WHILE YOU'RE COOKING

i Kitchen fires started by unattended cooking is the most common fire threat to the home.

There are simple actions you can take to reduce the risk of fire in the kitchen.

CLEAN

CLEAN kitchen appliances before and after use. Keep stoves, ovens and exhaust fans free of grease and fat build-up.

KEEP CLEAR

Keep stovetops **CLEAR** of flammable material like tea towels and electrical cords. Make sure pot handles are facing inwards.

WATCH

Always **WATCH** open flames. Never leave cooking unattended. Consider using a timer to avoid distractions.

PREPARE

Have a fire blanket and extinguisher (e.g. carbon dioxide or dry powder) in the kitchen.
